15 tabletop displays from Plumbing & HVAC Industry Manufacturers, Distributors & Reps!!

Four Technical Trainings / Classroom sessions

Wardflex – Training & Certification

Presented by: Joe Ferdinando with Eklof Associates

Wardflex, a corrugated stainless steel tubing system for gas and plumbing applications, will provide residential and commercial training and certification on the application & use of gas piping. Certification Included.

Fieldpiece Instruments for HVAC

Presented by: Andrew Biser & Scott Sharrett

This session will include an over-view and demonstration of specific HVAC instruments to include leak detection, refrigerant scales, clamp meters and manometers

Flue Gas Venting Requirements & Instruction & DOE 2027 Water Heater Requirements

Presented by: Darren Wilmore, Hydronics Specialist, The Joyce Agency

This session will consist of an over-view of venting systems for water heaters and boilers, to include requirements, instructions and installation. Also, will be covering the 2027 DOE Water Heater Requirements

Keys for Successful Upselling

Presented by: Adam Cook, Representative with ActivePure Technologies

This session will focus on the value of technician upselling. Training will consist of how to effectively promote and sell upgrades, service plans, systems, etc.
